GUIDELINES FOR NRT INTUBATION TRAINING
(DR. STICE)

Contact the OR manager, Cheryl Peterson (cheryl.peterson@kapiolani.org) for any credentialing needed prior to training.

2 days in the OR
1. OR starts at 0730 every am except Wednesdays, when they start at 083.
2. RN/RT in training will need to call Dr. Stice the night before to obtain the OR schedule for the following day. Her cell phone number 808-265-108.
3. The RN/RT will need to arrive 30 minutes beforehand to obtain OR scrubs and familiarize herself with the OR and the equipment.

Information to review prior to trainin:
1. Airway anatomy
2. Differences in neonatal, pediatric & adult airways
3. Age appropriate sizing for laryngoscopes blades
4. Basic knowledge of bag/mask ventilation
5. Age appropriate sizing for ETT’s
6. Steps for dealing with airway emergencies, e.g.: inability to ventilate, inability to intubate, laryngospasm, bronchospasm

Even if the RN’s/RT’s have never done an intubation, they should be able to talk through it in a precise manner what they are going to do in a step wise fashion.
